25X1

PRINTING AND PHOTOGRAPHY DIVISION
WEEKLY REPORT FOR PERIOD OF
10 July - 16 July 1986

25X1

I. Items or Events of Major Interest that have Occurred
During the Preceding Week

25X1

25X1

no B. On 8 July 1986 representatives of the Office of Logistics, Printing and Photography Division (OL/P&PD) and the Office of Information Technology (OIT) met with technical personnel from the Dicomed Computer Graphics Corporation to discuss their newly introduced system. Known as the "File Manager," this hardware/software package has the ability to enhance P&PD's computer graphics capabilities through improved communications among the current system's components and between P&PD's system and VM. The "File Manager" will permit customer graphics data to be routed directly to P&PD's film recorder for slides or vugraphs, or the data can be sent to P&PD's Dicomed design stations for "massaging" by an art designer prior to output. The "File Manager" would also improve P&PD's ability to process rush requirements in a manner much less disruptive to production than is now the case. P&PD plans to procure a "File Manager" early in FY87.

leg.
No
25X1 C. The ~~Quality Circle (QC) team (The Lost Colony)~~, Office of Logistics, Printing and Photography Division (OL/P&PD), will brief representatives from the Intelligence Community Staff (ICS) on their current ~~QC~~ project to standardize ICS publication. This briefing will initially focus on one of their publications with others to be added in the future. The briefing will be in the P&PD conference Room, 1 p.m. Wednesday, 16 July.

yes
25X1 D. The Office of Information Technology, ~~Applications Management Branch (OIT/AMB)~~ has informed the Office of Logistics, Printing and Photography Division (OL/P&PD) that due to reductions in overtime they will not have the bi-weekly payroll tapes ready for pickup until about 0800 hours on Thursday, as opposed to the current arrangement whereby the tapes are picked up from the Center at 0600 hours. P&PD has expressed dissatisfaction with this change, and is currently attempting to work out an alternate method of getting the tapes earlier to avoid as much overtime as possible in completing this high priority request. The Office of Finance has refused to extend the Friday, 0900 hours deadline for this job.

microfilming

yes
25X1 E. On Thursday, 10 July 1986, the Office of Logistics, Printing and Photography Division (OL/P&PD) experienced flooding in the photographic storage room which was caused by a broken water pipe. A substantial amount of photographic paper was damaged and the floor was covered with dirt. As of Monday, 14 July Allied was still making repairs and flooding has reoccurred in several areas. This problem has forced a partial shutdown of this section.
